

# Hughes Recognized for the Third Time in Gartner® Magic Quadrant™ for Managed Network Services

December 7, 2022

GERMANTOWN, Md., Dec. 7, 2022 /PRNewswire/ -- Research and consulting firm Gartner, the world's leading information technology and advisory company, named [Hughes Network Systems, LLC](#) (HUGHES) a [Challenger in the 2022 Gartner® Magic Quadrant™ for Managed Network Services](#) for the third year in a row. According to the report, Challengers "demonstrate sustained execution in the marketplace and will have clear and long-term viability in the market."

"All of us at Hughes appreciate the continued recognition as a Challenger in the Gartner Magic Quadrant for Managed Network Services," said Dan Rasmussen, senior vice president, enterprise division, Hughes. "We believe it reflects our commitment to service excellence combined with our ability to execute on behalf of our customers in the U.S., Europe, India and Latin America."

With more than half a million network sites under management for enterprises worldwide, Hughes brings decades of networking expertise to its customers. Hughes solutions blend reliable network performance, dependable service delivery and advanced techniques like Artificial Intelligence (AI) and Machine Learning (ML) to help enterprises achieve business goals.

Hughes offers a suite of end-to-end managed services designed to solve business challenges, all delivered in an agile, scalable and secure manner. The HughesON™ suite of managed services includes broadband connectivity, SD-WAN, Wi-Fi, VoIP, security, cloud-based digital signage and employee communication & training. Hughes solutions transform business networks – making them higher performing, more secure, more reliable and more cost-efficient, and help clients deliver an exceptional customer and employee experience.
