DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

All statements contained herein, as well as statements made in press releases and oral statements that may be made by us or by officers, directors or employees acting on our behalf, that are not statements of historical fact constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Whenever you read a statement that is not simply a statement of historical fact (such as when we describe what we “believe,” “intend,” “plan,” “estimate,” “expect” or “anticipate” will occur and other similar statements), you must remember that our expectations may not turn out to be correct, even though we believe they are reasonable. We do not guarantee that any future transactions or events described herein will happen as described or that they will happen at all. Whether actual events or results will conform to our expectations and predictions is subject to a number of risks and uncertainties. These risks and uncertainties include, but are not limited to, the following:

- We face intense and increasing competition from the satellite and cable television industry; new competitors are likely to enter the subscription television business, and new technologies may increase competition;
- DISH Network subscriber growth may decrease, subscriber turnover may increase and subscriber acquisition costs may increase;
- Partners in our co-branding and other distribution relationships may de-emphasize or discontinue their efforts to acquire DISH Network subscribers, or may begin offering non-DISH Network video services, which would cause our subscriber additions and related revenue to decline and could cause our subscriber turnover and other costs to increase;
- Satellite programming signals have been pirated and will continue to be pirated in the future; pirating could cause us to lose subscribers and revenue, and result in higher costs to us;
- Programming costs may increase beyond our current expectations; we may be unable to obtain or renew programming agreements on acceptable terms or at all; existing programming agreements could be subject to cancellation; foreign programming is increasingly offered on other platforms which could cause our subscriber additions and related revenue to decline and could cause our subscriber turnover to increase;
- Weakness in the global or U.S. economy may harm our business generally, and adverse local political or economic developments may occur in some of our markets;
- The regulations governing our industry may change;
- Certain provisions of the Satellite Home Viewer Extension and Reauthorization Act of 2004, or SHVERA, may force us to stop offering local channels in certain markets or incur additional costs to continue offering local channels in certain markets;
- Our satellite launches may be delayed or fail, or our satellites may fail in orbit prior to the end of their scheduled lives causing extended interruptions of some of the channels we offer;
- We currently do not have commercial insurance covering losses incurred from the failure of satellite launches and/or in-orbit satellites;
- Service interruptions arising from technical anomalies on satellites or on-ground components of our DBS system, or caused by war, terrorist activities or natural disasters, may cause customer cancellations or otherwise harm our business;
- We are heavily dependent on complex information technologies; weaknesses in our information technology systems could have an adverse impact on our business; we may have difficulty attracting and retaining qualified personnel to maintain our information technology infrastructure;
- We may be unable to obtain needed retransmission consents, Federal Communications Commission (“FCC”) authorizations or export licenses, and we may lose our current or future authorizations;
- We are party to various lawsuits which, if adversely decided, could have a significant adverse impact on our business;
- We may be unable to obtain patent licenses from holders of intellectual property or redesign our products to avoid patent infringement;
- Sales of digital equipment and related services to international direct-to-home service providers may decrease;
- We are highly leveraged and subject to numerous constraints on our ability to raise additional debt;
• acquisitions, business combinations, strategic partnerships, divestitures and other significant transactions may involve additional uncertainties;

• terrorist attacks, the possibility of war or other hostilities, and changes in political and economic conditions as a result of these events may continue to affect the U.S. and the global economy and may increase other risks;

• we are periodically evaluating and testing our internal controls over financial reporting in order to satisfy the requirements of Section 404 of the Sarbanes-Oxley Act. Although our management concluded that our internal control over financial reporting was effective as of December 31, 2004, if in the future we are unable to report that our internal controls over financial reporting are effective (or if our auditors do not agree with our assessment of the effectiveness of, or are unable to express an opinion on, our internal controls over financial reporting), we could lose investor confidence in our financial reports, which could have a material adverse effect on our stock price and our business; and

• we may face other risks described from time to time in periodic and current reports we file with the Securities and Exchange Commission (“SEC”).

All cautionary statements made herein should be read as being applicable to all forward-looking statements wherever they appear. In this connection, investors should consider the risks described herein and should not place undue reliance on any forward-looking statements.
