

Hughes Named "Top Performer" in 2019 SD-WAN Customer Success Report

April 2, 2019

FeaturedCustomers platform recognizes outstanding customer satisfaction with HughesON Managed SD-WAN

GERMANTOWN, Md., April 2, 2019 /PRNewswire/ -- [Hughes Network Systems, LLC](#) (HUGHES), a leading provider of managed network services under its [HughesON](#)™ brand, has been named a [Top Performer](#) in the SD-WAN category of the Winter 2019 Customer Success Report published by [FeaturedCustomers](#). The world's leading customer reference platform for B2B services, FeaturedCustomers influences the purchasing decisions of thousands of B2B buyers – from Fortune 500 companies to SMBs. Top Performer status for Hughes is based on authenticated customer case studies, testimonials and reviews of the company's [HughesON Managed SD-WAN solution](#), which delivers superior security and dramatically improves application performance and end-user experience.

"This recognition is particularly meaningful to Hughes, as it is based exclusively on the positive feedback of our enterprise customers," said Jeff Bradbury, senior marketing director at Hughes. "Hughes is committed to being a true business partner to our clients, going the extra mile to provide innovative technology solutions and extraordinary customer service."

Testimonials from Hughes customers [Jack in the Box](#), [M&T Bank](#) and [Total Wine](#) contributed to the company's Top Performer ranking, which also considers customer success content, social media presence, web traffic and search trends.

FeaturedCustomers recognizes Hughes, which oversees nearly half a million enterprise sites, as a managed services provider with significant market presence and customer success, validating the company's mission to be the leading global connectivity provider for people, enterprises and things. A leader in managed SD-WAN for customers in industries including retail, restaurant, hospitality and more, Hughes manages more than 30,000 deployed SD-WAN sites, including individual customer networks spanning as many as 3,500 sites.
