Adjusted EBITDA is not a measure determined in accordance with US GAAP. Adjusted EBITDA is reconciled to "Net income (loss)" in the table above and should not be considered in isolation or as a substitute for operating income, net income or any other measure determined in accordance with US GAAP. Our management uses this non-GAAP measure as a measure of our operating efficiency and overall financial performance for benchmarking against our peers and competitors. Management believes that this non-GAAP measure provides meaningful supplemental information regarding the underlying operating performance of our business and is appropriate to enhance an overall understanding of our financial performance. Management also believes that Adjusted EBITDA is useful to investors because it is frequently used by securities analysts, investors, and other interested parties to evaluate the performance of companies in our industry.
