

## EchoStar Announces President of EchoStar Satellite Services

ENGLEWOOD, CO -- (MARKET WIRE) -- 06/22/11 -- EchoStar Corporation (NASDAQ: SATS), the premier global provider of satellite operations and digital TV solutions, announced today that Anders Johnson has joined EchoStar as President of EchoStar Satellite Services, reporting directly to Michael Dugan, Chief Executive Officer and President of EchoStar.

"Anders brings us a wealth of experience in global satellite spectrum development, international markets, satellite financing and investment, which will help us in continuing to develop our satellite services business as well as working with myself and Hughes management to develop and implement our international expansion strategy," said Mr. Dugan.

Mr. Johnson was most recently at SES World Skies where he served as Senior Vice-President, Strategic Satellite Development since 2005. Prior to SES, Anders worked at GE from 1985 in a variety of executive level roles including Satellite Services, Aviation Services and Transportation & Industrial Financing.

### *About EchoStar*

EchoStar Corporation (NASDAQ: SATS) is a premier global provider of satellite operations and digital TV solutions that enhance today's home entertainment lifestyle. Its wholly owned subsidiary Hughes Communications, Inc. is the world's leading provider of satellite broadband for home and office, delivering innovative network technologies and managed network services for enterprises and governments in more than 100 countries. Among the many offerings of this combined powerhouse in broadband data and video are HughesNet®, the market's #1 high-speed satellite Internet service; Sling Media's award-winning SlingLoaded® technology; and Move Networks' adaptive bit-rate streaming technology.

Headquartered in Englewood, Colo. with more than 4,600 employees worldwide, EchoStar has more than 25 years of experience designing, developing and distributing award-winning television set-top boxes, services and related delivery products for television. EchoStar delivers satellite broadband and transport services for enterprises, governments, small businesses, and consumers using 11 satellites and related broadcast licenses around the globe.
